So Wrasse Regular 48pt / 52pt

**The wrasses are a family, Labridae, of marine fish, many of which are brightly colored. The family is large and diverse, with over 600 species in 82 genera, which are divided into 9 subgroups or tribes. They are typically small fish, most of them less than 20 cm long, although the largest, the humphead wrasse, can measure up to 2.5 m.**
